## About This Game

*Note: Muscle Magic requires a controller to play*

**Muscle Magic is a fresh new take on the old Warlock sub-genre, but with an added twist of muscular mages!**

In Muscle Magic, each player controls one of the most buff wizards in all of the land, and tries to KO his opposition in order to gain control over the source of their immense power: the illustrious Swole Gems. Up to 4 players can partake in their exhilarating brawls, so grab some friends and duke it out to be the last wizard standing!

## Features

- **Local Multiplayer**

Play locally with your friends and family in a variety of different ways, from fun free-for-all's, to tactical team matches, to intense 1v1's.

- **Accessible, but rewarding gameplay**

The game is easy for every sort of player to get into, but with all of the spells you can master and all of the opponents you have to predict, the gameplay proves rewarding for those that choose to master it.

- **Variety of Spells**

There are 17 spells to use, each with their own unique functionality. Use them to defend yourself, move around the battlefield or to KO your opponents!

---

- **Customize your wizard**

Each wizard has a variety of hats and staffs to adorn their muscular bodies with. Choose which outfits fit you best, and become the most beautiful warlock in existence!

## **Future Plans**

Muscle Magic is a 3rd year student project from students at Breda University of Applied Sciences. The game is still in active development, and we will continue to update it regularly until the beginning of July with additional content and tweaks. If you want to give us any feedback on the game for how we can improve it throughout this development period, consider leaving a review or sharing your feedback on our social media platforms!
