You'll have your own island, but taking care of something like that is a lot of hard work. You'll be able to plant trees to get wood and craft new tools and buildings with it. Or create crop fields to grow all kinds of vegetables. You'll also have a farm with chickens and pigs to take care of. But be careful, because this isn't as easy as it looks! You'll also be able to fish in a pond on the island, cut trees with your hatchet, build things with your hammer and use a hoe to help you harvest your island.

Koa will need your help. With an easy-RPG system, she can acquire new abilities and grow stronger. We want you to feel like you're growing up with Koa, bonding with her and with all the other people in the archipelago.

You'll be able to sail to new islands and find treasures and other secrets in the middle of the sea with your trusty boat which you can upgrade with a little effort and time.
With new islands comes new people. You'll talk and trade with over twenty characters, each one with their own story and lifes. They'll give you quests, hints about the world or just anecdotes about their life and travels. Getting to know them is a very important part in the game, so we put much effort in making them unique and interesting.

But not all of the people you find will be friendly. An evil corporation called Elite wants to conquer Mara and exploit the ocean. Napopo is one of their first victims, a strange creature that will seek Koa for help.
